The Wall Street School · 2017

Agentic AI (Primer)

Vanderbilt / Coursera · 2026

Sanu Dutta

Senior Infrastructure & Project Finance Financial Modeller

Financial Modelling & Automation Specialist

PROFILE

Senior infrastructure & project finance financial modeller with 13 years of experience, including Big-4 tenure at EY and KPMG. Delivered 40+ international mandates across the US, UK, Europe, MENA, Australia and China — serving governments, developers, lenders and infrastructure funds. Specialist in fully flexible, automated models for PPP, project finance, PPA, LBO and M&A, combining deep domain expertise with Excel/VBA automation and, increasingly, agentic-AI workflows.

EXPERIENCE

Associate Manager, Infrastructure Advisory

Mar 2021 – Present

EY (Ernst & Young) — GDS, Gurgaon

- Primary modelling lead on infrastructure, PPP, renewables and M&A engagements for UK, EU and MENA clients.
- Built a EUR 600m–1bn German CRE portfolio model (23 assets) and a 160-vessel restructuring model.
- 2-month EY Italy secondment: buy-side M&A models (28-asset biomass portfolio; hospital merger).
- Developed a reusable VBA valuation engine (saves 3–4 man-days) and a consolidation tool (~40% review time), adopted team-wide.

Financial Modelling — Infrastructure & Project Finance

Earlier Career

KPMG (incl. Hong Kong secondment)

- Lead modeller on the House of Justice DBFOM PPP (USD 300–500m+; availability payment; IFRIC 12).
- Delivered a 1,000 MW solar PPA bid model (~USD 750m) with 4 weeks live onshore support; client shortlisted.
- Built the FIFA World Cup 2022 smart-parking PPP concession model in Doha (USD 150–300m+).
- Created an automated VBA PPA / purchase-price-allocation tool (IFRS 3), cutting build time to 1–2 hours.

SELECTED ENGAGEMENTS

- House of Justice DBFOM PPP — USD
- 1,000 MW Solar PPA Bid — USD ~750m
- FIFA WC 2022 Smart Parking PPP, Doha
- German CRE Portfolio, 23 assets — EUR
- Middle East 160-Vessel Restructuring
- Brownfield Nuclear Minority Stake
